

BALOCHISTAN
UET
KHUZDAR

3rd
Convocation
Tuesday, 25th October, 2016

سُبْحَانَكَ اللَّهُمَّ

*O Pakistan! Our home and native land!
True patriot love in all thy sons command.*

*With glowing hearts we see thee rise,
The True North strong and free!*

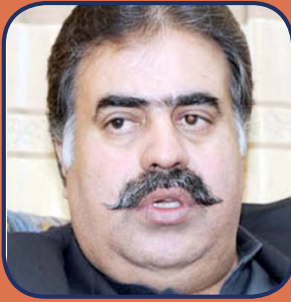

*From far and wide, O Pakistan,
We stand on guard for thee.*

God keep our land glorious and free!

O Pakistan, we stand on guard for thee.

O Pakistan, we stand on guard for thee.

Introduction

Balochistan University of Engineering & Technology Khuzdar is a well-known public sector university providing a technical base for development of country by producing about 230 technically sound, professional & motivated Engineers every year. The Engineers passed out from this institution are contributing their due share in development of country by serving in different public & private organizations. BUETK contributes in defining standards & systems for the up-lift Of socio-economic order through quality education and services by providing an environment conducive to learning, teaching, academic inquiry and innovation maintaining academic excellence and professionalism adhering to establish systems for ensuring good governance for management and transfer of knowledge benchmarking with other leading institutions of higher education for improvement enhancing efficient and effective operations by encouraging participation of stakeholders pursuing continuous improvement through creativity, team work and adaptation to change for playing a catalytic role to achieve the national, regional and global. Since last decades, Balochistan University of Engineering & Technology Khuzdar has achieved important milestones and gained immense significance as an institution of higher education in Pakistan. The university produces professionals and researchers of very high caliber, capable of developing indigenous technologies to meet the growing demands of the 21st century.

Balochistan University of Engineering & Technology Khuzdar has a team of devoted and foreign qualified faculty, state of art laboratories, well-furnished central and departmental libraries, newly established directorate Office of Research, innovation & Commercialization (ORIC) in pursuance of HEC Policy, students' hostels and other basic facilities of life.

Coming to Balochistan UET Khuzdar could be one of the most rewarding experience of any student's life after getting admission on purely merit basis in a discipline for which he/she applies. Intellectual challenges to extend knowledge and skills of each student to have to be faced; however, there would also be chances to develop new techniques and possible friendships.

Our objectives are to:

- Provide an attractive campus environment and the resources to promote learning throughout the university
- Create supportive environments and innovative opportunities for students learning.
- Provide high quality, accessible education that prepares learners for productive & creative lives
- Provide technical base for development of the country
- Contribute due share in the development of the country by producing technically sound and motivated engineers
- Provide a best platform for research and promote modern education.
- Give university an international recognition

Foreword

BUETK third convocation coincides with the decade celebrations and provides us the opportunity to review our performance and up to date of the history of the University. Students of BUETK, join the university with the urge to gain meaningful and rewarding education and pass out on the completion of their cherished ambitions with confidence and competence to fulfill their social and professional duties. They are equipped with assurance and intellectual maturity of successfully completing not only the prescribed courses of study but of successfully achieving an emancipated outlook to think and work independently. Convocation is an immense public occasion when the University celebrates the accomplishments of its graduates. It is a commemoration of a student's life at their University and an opportunity to share this significant milestone with faculty, peers, family and friends. It is great pleasure for us to announce that the Balochistan University of Engineering & Technology, Khuzdar, is holding its 3rd convocation in the month of 25 October, 2016 to confer degrees and award medals and prizes to those, who proved themselves worthy of the same in undergraduate programs. The university is offering degree programs which are directly relevant to the economic development of Balochistan and to the emergence of the region as a hub of advancement in modern sciences, engineering and management. The university is growing with breadth and depth of concentration on meaningful learning and productive research. Bringing modern education to the doorsteps of youth, without putting undue financial strain on the finances of their parents/ guardians is the cherished ambition of all public sector universities in the country and they are shouldering this responsibility to the utmost in comparison with the financial/material resources being provided to them by the government.

The Faculty Development Program undertaken by the university in collaboration with HEC has started yielding tangible results. Faculty members sent abroad for MS and Ph.D studies have completed their programs successfully and are contributing to the academic accomplishments at this university by sharing their newly gained knowledge and expertise with the students. BUETK has already managed to develop a critical mass of academic expertise which can be turned to good account for the promotion of excellence in higher studies and research. The impact of this development has started becoming discernible and is likely to make a techno-scientific-industrial breakthrough in the country's least developed region.

There is dire necessity of peaceful atmosphere for the achievement of laudable milestones in our quest for quality. Unfortunately the region has been infected by political unrest and terrorist activities which are a matter of concern for all the patriotic citizens of Pakistan. The prevailing dissatisfactory state of the situation inland and across the borders is a matter of worry for all the forward looking people. Our law and order problems are putting unnecessary strain on our much needed financial resources which are rapidly shrinking and marring the process of the cherished development. In spite of all resource restraints and upheavals, we are steadily pursuing the cherished objectives of equipping our students with the art of living as competent and productive members of the society,

contributing to the intellectual as well as socio- economic uplift of Pakistan. It is a matter of great satisfaction for us that our graduates are readily accepted in the jobs market. BUETK expects them to devote all their energies and talents to the realization of the dreams of their kith and kin and the dreams of the whole nation. There are immense prospects of growth in every field and they have the capability to translate the ambitions of the people around them, into reality.

Realizing the paramount importance of higher education, the existence of a premier institution like BUETK in a comparatively under privileged part of the country, gives assurance that avenues of personal and national development are being opened in Balochistan. BUETK In spite of the resource handicaps and the air of political uncertainty, this institution is working for the betterment of the lot of people through sheer determination and dedication of Purpose. In spite of the financial cuts and restraints imposed by the government, BUETK continues to provide quality educational services without any hindrance. This has been possible only due to the dedication of our faculty and the administration staff. The availability of Video- Conferencing facility at Campus is a major development which enables the university to come in closer association with HEC and other universities. The facility also provides access to guidance from foreign educational sources.

We are confident that our alumni would contribute considerably towards the society. BUETK expects them to devote all their energies and talents to the realization of the dreams of their kith and kin and the dreams of the whole nation. There are immense prospects of growth in every field and they have the capability to translate the ambitions of the people around them, into reality.

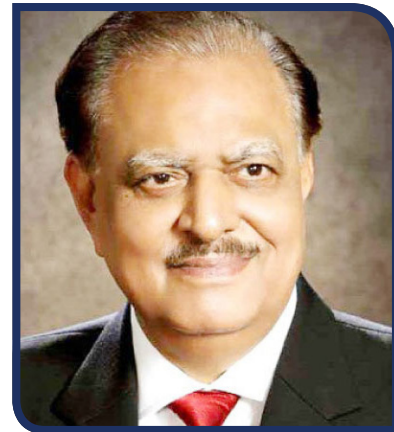

May Allah Almighty bless our endeavors with success.

Message from

Hon'ble. Mamnoon Hussain (President, Islamic Republic of Pakistan)

On the auspicious occasion of 3rd Convocation of Balochistan University of Engineering and Technology, Khuzdar (BUETK), I appreciate the services of the Vice Chancellor, management and the faculty for not only equipping the students with the most valuable tool of education but also for the growth and further development of the University to cater for the educational requirements of the area in a significant manner. The BUETK, in a relatively short span of time, has secured a significant place in the Higher Education Commission's ranking of the national universities. It has earned recognition in providing quality education in the disciplines like Engineering, and computer Science and Information Technology. I wish to congratulate the Vice Chancellor for his tireless efforts and spectacular vision for turning BUETK into hub of opportunities for the students of periphery of Balochistan and the heart of CPEC. All those associated with the University deserve to be complimented for the progress it has made and the milestones achieved. The parents and guardians of the graduating students deserve to be commended for their sacrifices and patience to witness this day. The success of any University is measured not only by its infrastructural facilities but also by the devotion of its management, faculty and the zeal of its students to learn. In this context, BUETK deserves to be appreciated and the manner in which the University is serving the cause of education is indeed commendable. I hope that BUETK will keep on producing professionals of excellence and its alumni will play an effective role in the development of the country.

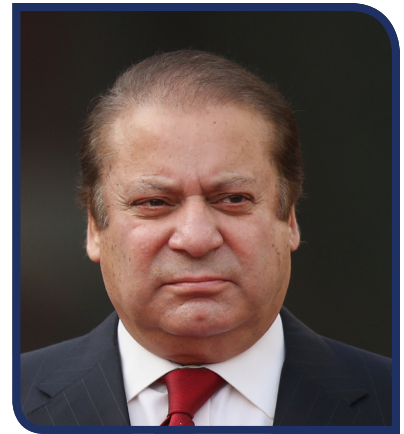

On this momentous occasion in the life of graduating students, I would urge them to work diligently and honestly in their practical lives. In their careers, they would be judged by their professional caliber, integrity, sense of responsibility and by their services to humanity. Besides striving for professional excellence, it is also equally important to be a good human being and to display and hold high exemplary moral and ethical values, I wish all graduating students the best in their future lives and I hope that they will be contributing to the betterment and prosperity of the society and the country. Once again I wish to congratulate the graduating students, their parents and guardians, the faculty and the administration of the University and wish them good luck in their future endeavors.

Message from

Hon'ble. Mian Muhammad Nawaz Sharif (Prime Minister, Islamic Republic of Pakistan)

It gives me great satisfaction to learn that Balochistan University of Engineering & Technology, Khuzdar (BUETK), is holding its 3rd Convocation on 25th October, 2016. This Convocation coincides with a successful completion of 21 years of its dedicated service to the people of Balochistan under the dynamic leadership of Vice Chancellor. This institution has bagged a reputation of building the economy of Balochistan in specific and Pakistan in general, as Engineers are reckoned assets for the "Game Changer" programme CPEC. In this regard the Vice Chancellor has paid special attention to the skill sets of future builders of our nation in order to make them capable and competent professional Engineers of Pakistan. It is worthy to mention the commendable efforts of the Vice Chancellor due to which BUETK is now ranked amongst the best Engineering Universities in the Country. In this modern age, survival of the nations is widely dependent on advancement, particularly in the fields of research and technology. BUETK, since its inception, has worked greatly for the promotion of education; and with the collaboration of HEC, the University has evolved not only as an important academic institution, but a beacon for the youth of Balochistan province. BUETK being an institution with varied disciplinary options provides the nation with capable professionals in almost every field of Engineering and computer sciences. I expect the university to achieve more laurels in the days to come by focusing on producing competent professionals. The entire university staff under the leadership of their Vice Chancellor deserves accolades for their dedicated services in ensuring the university's high academic excellence. I hope that the students graduating from this institution exhibit professionalism and civic values essential for achieving national and global harmony. I also take this opportunity to congratulate the graduating students and their parents and guardians on the completion of their studies. The day marks an important turning point in the life of these graduates who venture into practical life with newer set of challenges and opportunities. I am sure that our youth have the potential to make a difference and serve the people of Pakistan in the best possible manner.

I send my cordial felicitations to the BUETK Family, the graduating students, and their parents & guardians for achieving yet another milestone and wish to see more of these occasions.

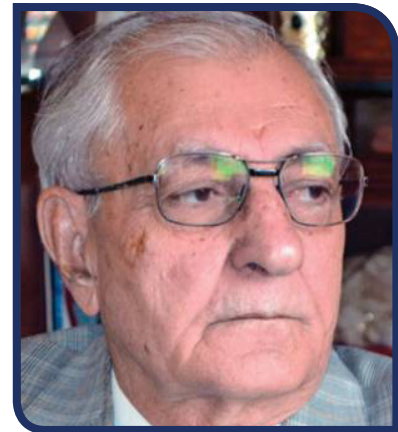

Convocation 2016

Message from

Muhammad Khan Achakzai

(Governor Balochistan/Chancellor BUETK)

I am pleased to know that the Balochistan University of Engineering and Technology, Khuzdar (BUETK) is holding its 3rd Convocation in the month of October, 2016. The growth and Emergence of BUETK as prominent institution of Pakistan and its recognition internationally, has given me a great sense of satisfaction as its Chancellor. Universities not only impart knowledge but they are also meant for directing their students towards the development of society and nation by providing the education. Market based education especially professional education is the back bone of the economy. BUETK has no doubt, been a ray of hope despite the odds during the last decade. BUETK students are performing their role quite well, in the development of our society as valuable members and contributing significantly towards progress of nation. The BUETK is blooming under the leadership of the Vice Chancellor, who is a man of action with a commendable vision. The giant strides taken are evident from the record breaking efforts turned possibilities during past two years. I hope the graduating students of this university will contribute towards building a better Pakistan. I heartily congratulate the graduates, who are being conferred their hard-earned degrees. Their parents, guardians and the faculty members of the University who made efforts to provide dedicated professionals of tomorrow also deserve recognition of their contribution to the achievement of the students.

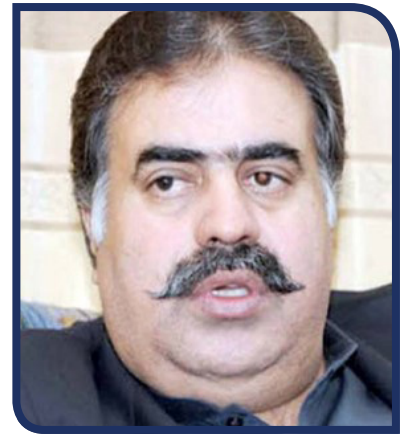

I also take this opportunity to record my appreciation for the administration and authorities of the University for making a significant difference in the educational outlook of the province.

I wish them all success in their future life.

Message from

Nawab Sana Ullah Khan Zehri (Chief Minister of Balochistan)

Balochistan University of Engineering & Technology Khuzdar is a reputable educational institute of Balochistan which has been playing a leading role in producing engineers who are equipped effectively with the artifact of Engineering. Under the visionary leadership of the Vice Chancellor, the Administration and faculty members have attained highest laurels of selfless service and aptly deserve appreciation for this tremendous accomplishment. The Vice Chancellor has played an imperative role by working endlessly for optimistic change, activity and progress of Balochistan in order to bring it at par with sister provinces of Pakistan in terms of development. The 3rd Convocation of BUETK is a mega event for the university & the students because they get the fruits of their untiring efforts on this auspicious occasion made during their educational career.

Education is not only source that can do marvels in the world. The graduating students and their parents deserve appreciation for discharging their crucial moral and religious duty as envisaged in golden tenets of Islam. Dear Graduates, professional and modern world is open for you now, take lead and prove yourself on dint of diligence, impeccable integrity, dedication and sincerity of purpose.

I am sure that the graduation students of Balochistan University of Engineering & Technology Khuzdar will practically apply the education they have in this great institute and would become role models for the youth of Balochistan. The passing out graduates should be motivated and encouraged to accept any challenge. At the end, I would advise the pupils of this university to make the proverb "the harder you work, the luckier you are" as the moto of their life. Once again I extend my felicitations to the graduating students for achieving the milestone of successfully getting engineering degrees from BUETK.

Message from

Prof. Dr. Mukhtar Ahmad (Chairman, Higher Education Commission)

I am pleased to learn that Balochistan University of Engineering & Technology, Khuzdar (BUETK), has scheduled its 3rd successive convocation and extend warm wishes to the Vice Chancellor, learned faculty of BUETK for being so dedicated to the cause of quality education, and management in their efforts to manage the event successfully. It is a matter of immense pleasure to see that BUETK is focusing on paving the path for progress of the society by providing well trained human resource required for full utilization of our resources, which has solely made possible by the far-sighted and insightful leadership of the Vice Chancellor. Higher Education Commission (HEC) is also encouraging to see that the university is producing high caliber graduates from the very beginning for development of the society and it has consolidated its position as an institution of trust.

Higher Education Commission has been supporting BUETK since its inception and it will keep on doing so in future. It's unfortunate that budget cuts on higher education compelled us to dismantle some areas of training and development, but our commitment to higher education stands fast and we are committed to realizing our cherished goals.

We encourage Public sector universities to move ahead to have their feet fixed firmly on the ground so they may not totally depend on HEC for finances. In this context civil society has to play a leading role. Industries and professional organizations are required to sponsor academic development for the sake of amalgamated their own foundations. We appreciate all the stakeholders for their interest/input towards the betterment of higher education in Pakistan.

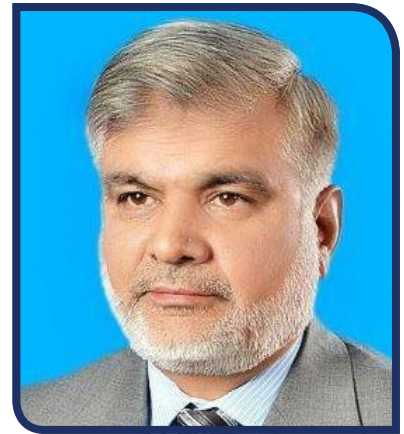

May ALLAH grant us success in all our efforts.... Ameeeen

Message from

Brig. ® Engr. Muḥammad Amin SI (M)

Vice Chancellor BUETK

Festivals and events are the life of any society and organization. Same way convocations in any university is no less than a big Festival. It is a moment of immense pleasure for me and the entire community of BUETK to celebrate the Third Convocation. Today is the day of celebration not only for graduating students and their parents but for the Faculty, Staff, members of academic council and syndicate to witness the fruits of their hard work and contributions in their respective capacities. This traditional and memorable event provides us an opportunity to recognize the achievements of our graduates publicly, and deservingly a time of great pride for you, your family and the staff who have guided you during your stay at the University. I am sure that during your four years stay at the BUET Khuzdar, you have been trained enough to go forth into the society to share the ideas, competencies and a commitment to serve the society and the nation for which you are amply educated at BUET Khuzdar. BUETK education is beyond 'just academic knowledge'. We support intellectual and personal growth of students, preparing them to become leaders and productive citizens with sound ethical values. Because we believe that a University does not merely undertake to produce potential Engineers, but it teaches them how to live in society and prepares them for the battle of life. Its object is mental culture and freedom from prejudices of all kinds. It broadens the minds, enlarges the vision, encourages intellectual independence and develops impartial judgments. It enables a man to cultivate the capacity for clear thinking and expressing his views effectively. It fits him to hold any post and teaches him his duty to other members of society.

You have witnessed a phenomenal change in your university during past two years. This change I am sure must have taught you many positive and productive lessons. With practical manifestation of this change you will be more confident to pursue your future professional lives. Practice good what you learned, and try to earn good name for yourself and your university.

My dear graduating students! Convocation is a day for celebration, but it also presents an opportunity for reflection by looking at the reasons of your success; the hard work, patience, inspiration provided to you by your teachers who taught you through extensive academic activities and most of all the efforts of your parents who did all what they could to see you reach this day. My dear graduating students! Being privileged through higher education, you've

Convocation 2016

become the most important members of the society. Utilize your talent and competencies for the service of the nation and the humanity. At the last a word of advice; I would like to say that today you have undoubtedly achieved success, but your success will be measured by your ability to address challenges that you will face in your professional life. Towards that end try to achieve mastery in problem solving skills, sharpen your enquiring mind, be a good team player and develop a positive attitude to ultimately earn the name of a good engineer.

I am confident that you will prepare for a future of opportunities and take on a world of infinite possibilities. We owe our success to the grace of Almighty ALLAH, Hon. Chancellor's support and also highly indebted to the respectable Chief Minister of Balochistan, the Federal Minister Planning, Development and Reforms and all government departments. We are thankful for the support of our syndicate members, tangible encouragement from the Higher Education Commission, our ever-hard working Faculty, administrative staff and all employees.

May Allah subhan wa tallah guide us in our endeavors (Ameen)

BUETK Zinadabad

Balochistan Zinadabad

Pakistan Paindabad!

Message From

Prof. Dr. Syed Mushtaq Ahmed Shah

Dean Faculty of Engineering BUETK

On the eve of the 3rd convocation of Balochistan University of Engineering and Technology Khuzdar on October 25, 2016; it is imperative to let the nation know about academic excellence and dynamic performance BUET Khuzdar has rendered over the past twenty five years.

The university is proud of its reputation and the quality of its graduates. We believe, it is the perfect place in which to grow academically and professionally because the innovative and effective academic ambience of this university involves the potential of its students in an exciting way that perhaps students have never imagined before. The university is widely known as an institution of strong performance and high ambition as in last few years it has continued to make excellent progress towards its goals. It has started a new era of provision of engineering and technical education to this remote part of Balochistan.

BUET, Khuzdar has come a long way to have achieved the milestone of earning tremendous and outstanding reputation nationally. Holding the third convocation is a day that should not only be a ceremony for degree awarding to outgoing graduates but on the eve of this landmark, utilizing this occasion, it is imperative for the civil society, students, community and public representatives to vow for rallying behind the measures being undertaken for bringing about academic revolution in Balochistan by Higher Education Commission and the management of BUET, Khuzdar. Inarguably this institution is a beacon of hope which is going to change the entire socio-economic and politico-economic physiognomy of our province by catering quality engineering education since education is the only potential force that can bring this province from depths of backwardness and misery to the zenith of glory. It is an occasion to thank to Allah Almighty for giving us propensity and wisdom to achieve this important milestone in the history of Balochistan UET Khuzdar.

I am very delighted to congratulate to the proud students of BUETK who have graduated since last convocation. I am sure that the skills they got from this university have enabled them to acquire the capabilities and qualities required for future growth.

The faculty and staff of BUETK have disposed great qualities and dedication culminating in achievement of this land mark. It would not have been possible without their support. We hope that all those who participate and attend will thoroughly enjoy this day. If anyone has a suggestion for making Convocation even more special, then please do not hesitate to let us know your ideas.

ORDER OF PROGRAM

10:30 am	:	Guests to be seated
10:45 am	:	Arrival of the Chief Guest
11:00 am	:	Academic Procession enters the convocation hall a. National Anthem b. Chancellor Declares the Convocation Open
11:10 am	:	Recitation from the Holy Quran
11:20 am	:	Welcome Address by the Vice Chancellor
11:30 am	:	Conferment and award of degrees
12:25 pm	:	Award of Badges of Honor
12:30 pm	:	Award of Gold medals
12:45 pm	:	Address by the Chancellor
1:00 pm	:	Prayer (Dua'a)
1:10 pm	:	Academic Procession leaves the convocation hall
1:20 pm	:	Refreshment

BATCHES OF GRADUATING STUDENTS

The 3rd convocation of Balochistan University of Engineering and Technology, Khuzdar is being held to award degrees to the following batches in different programs of study.

1. *B.E. (Electrical Engineering)*
Intake 2010 and 2011
2. *B.E. (Civil Engineering)*
Intake 2010 and 2011
3. *B.E. (Mechanical Engineering)*
Intake 2010 and 2011
4. *B.E. (Computer System Engineering)*
Intake 2010 and 2011
5. *MCS (Computer Sciences)*
Batch 2012

ORDER OF PROCEEDINGS

On the prescribed time all guests are seated and the procession with Guests of honor will be entered in the convocation Hall.

Academic Procession

The teacher / officers of the university will then form a two lines procession leading by Registrar and walk into the Convocation Hall in reverse order of seniority, The, Chancellor, Guests of honour and the Vice Chancellor will follow at the back of the procession. Academic Procession enters the Convocation Hall. As soon as the procession enters, all shall rise from their seats and remain standing till the Chancellor, Guests of honour and the Vice Chancellor take their seats on the dais.

Announcement:

Stage compare (Engr. Jan Sher Khan) will make announcements.

- * *Announcement to sing the National Anthem is made and all the participants will stand up.*
- * *The Chief Guest is requested to declare the Convocation open.*

Chief Guest: "I declare the convocation open."

Announcement:

- * To properly start the convocation, Qari Sahab is called to recite few verses from the Holy Quran.
- * The Vice Chancellor is requested to come on the dais for welcome address.
- * The registrar is called on dais to start the formal proceedings.

The Registrar:

Ladies and Gentlemen! As you know the Convocation is a lifetime event in the life of students. It is a very auspicious occasion and one which all students look forward to. It is the high point of their academic achievements and one that marks the moment when they are ready to venture into the real world. As such this solemn occasion should be held in a dignified manner. So dear students, today it is your BIG day; it is your function. Make it a great success and memorize it.

Ladies and Gentlemen! I request Prof. Dr. Syed Mushtaq Ahmed Shah, the Dean of Engineering, to present the different Intake/batch of students to the Vice Chancellor, for the award of degrees of Bachelor of Engineering.

Prof. Dr. Syed Mushtaq Ahmed Shah

Sir, I present to you the candidates who fulfilled all the requirements for grant of the Degree in Bachelor of Electrical Engineering. I request you to admit them on the degree of Bachelor of Electrical Engineering.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the university, I confer upon you the **Degree of Bachelor of Electrical Engineering** and charge you that ever in your life and conversation you do prove yourselves worthy of the same, through appropriate professional behavior.

Prof. Dr. Syed Mushtaq Ahmed Shah

(Respected Vice Chancellor) Sir, I present to you the candidates who fulfilled all the requirements for grant of the Degree in Bachelor of Civil Engineering. I request you to admit them on the degree of Bachelor of Civil Engineering.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the university, I confer upon you the **Degree of Bachelor of Civil Engineering** and charge you that ever in your life and conversation you do prove yourselves worthy of the same, through appropriate professional behavior.

Prof. Dr. Syed Mushtaq Ahmed Shah

Sir, I present to you the candidates who fulfilled all the requirements for grant of the **Degree in Bachelor of Mechanical Engineering**. I request you to admit them on the degree of Bachelor of Mechanical Engineering.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the university, I confer upon you the Degree of Bachelor of Mechanical Engineering and charge you that ever in your life and conversation you do prove yourselves worthy of the same, through appropriate professional behavior.

Convocation 2016

Prof. Dr. Syed Mushtaq Ahmed Shah

Sir, I present to you the candidates who fulfilled all the requirements for grant of the **Degree in Bachelor of Computer Systems Engineering**. I request you to admit them on the degree of Bachelor of Computer Systems Engineering.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the university, I confer upon you the Degree of Bachelor of Computer Systems Engineering and charge you that ever in your life and conversation you do prove yourselves worthy of the same, through appropriate professional behavior.

Prof. Dr. Syed Mushtaq Ahmed Shah

Sir, I present to you the candidates who fulfilled all the requirements for the grant of the **Degree in Master of Computer Science**. I request you to confer the said degrees on them.

Vice Chancellor:

By the virtue of the authority vested in me as the Vice Chancellor of the university, I confer upon you the Degree of Master of Computer Science and charge you to prove yourself worthy of the same, through appropriate professional behavior.

Announcement:

The Guest of honour is requested to award degrees.

Professor Dr. Syed Mushtaq Ahmed Shah will announce the names of students for the award of degrees.

Announcement:

Engr. Jan Sher Khan will announce to call the controller on dais for the award of Gold Medals.

Convocation 2016

Civil Engineering Department

The Department of Civil Engineering at the Balochistan University of Engineering and Technology Khuzdar is the oldest and the largest in Balochistan. The department has produced 589 engineers who have made significant contributions in the planning and execution of Civil Engineering projects in the national as well as international level. The department offers a four-year course leading to Bachelor Degree in Civil Engineering.

Vision

The department of Civil Engineering strives to graduate highly qualified engineers, maintain nationally recognized research and provide quality professional and community service to the region and the world.

The Civil Engineering Department will excel in teaching, in research in all sub areas of civil engineering and in service to the public consistent with the land-grant mission of the university. The department will make significant contribution to the economic development of the state, region and nation.

Electrical Engineering Department

The Electrical Engineering Department at the Balochistan University of Engineering and Technology Khuzdar came into being along with the establishment of the Balochistan Engineering College in 1987. The Electrical Engineering Department is one of the largest departments in the university. The number of students is approximately 300. The department has more than 20 full-time academic staff. Teaching facilities included laboratories supported with a number of experienced lab. Lecturers and staff. The use of electricity is fundamental to modern life without it the society in its current form would collapse. Consequently, the importance of efficient and sustainable generation of electricity, its secure distribution, and intelligent use is essential for the society to prosper. Thus the study of electrical engineering at this department addresses all such issues.

Vision

The vision of Electrical Engineering Department is to create and inspiring and productive environment for high quality academic work and to become one of the best engineering departments in the country.

Mechanical Engineering Department

Mechanical engineering spans the broadest spectrum of engineering activities from concept and design through manufacturing and maintenance of all kinds of products and systems. It includes the areas such as energy, fluid mechanics, dynamics, combustion, vibration, design, manufacturing process systems modeling and simulation mechatronics, robotics, mechanics of material, practical,

problem solving known-how, BUETK's mechanical Engineering undergraduate program prepares students to take on challenges that may carry technologies and societal consequences.

Mechanical engineers are employed in virtually every kind of industry. They are involved with seeking new knowledge through research, creative design and development and with the construction, control management and sales of the, devices and system needed by society. A major strength of and education in mechanical is the flexibility it provides in future employment opportunities for its graduates.

Vision

An accredited program in mechanical engineering will serve the country and region by providing a quality engineering education that enable students to achieve excellences in their fields of study.

Department of Computer Systems Engineering & Sciences

Computer Engineering and Computer Science are integral part of modern day development. Keeping this in view, Department of Computer Systems Engineering and Sciences (CSE&S) at Balochistan University of Engineering and Technology was established in 2002. Currently CSE&S department offers Bachelor of Engineering program in Computer Systems Engineering in morning and programs of BS (Computer Science) and Master of Computer Science (MCS) in evening. CSE&S department also offers degree programs of MS computer science and ME computer engineering over weekends. It is also worth mentioning that this department is also responsible for video conferencing facilities and Network infrastructure services at BUETK.

The aim of the CSE&S Department has always been to provide high quality education in the field of Computer systems Engineering, Computer Sciences and Information Technology (IT) to highly talented young generation of Balochistan in particular and all across Pakistan in general, through target oriented teaching and problem oriented research. Highly talented and motivated faculty members of CSE&S department are committed to educate students to the best of their abilities in the field of Computer Engineering and Computer Science.

It is always our priority to meet the fast pace of advancement in the field of computer engineering and this regard labs play an important role. The department is well equipped with state of the art laboratories namely Microprocessor lab, software development lab, computing lab, multimedia lab and Digital Logic and Design lab, are fully functional. In near future, CSE & S department will be launching Microsoft IT Academy and authorized Certiport Testing Centre for development of IT skills of the youth of Balochistan. Moreover establishing CISCO Networks lab is also in process.

We believe that under the leadership of the Worthy Vice Chancellor Prof. Brig. (Retd) Engr. Muhammad Amin SI (M), we have the vision to provide skilled young engineering and science future

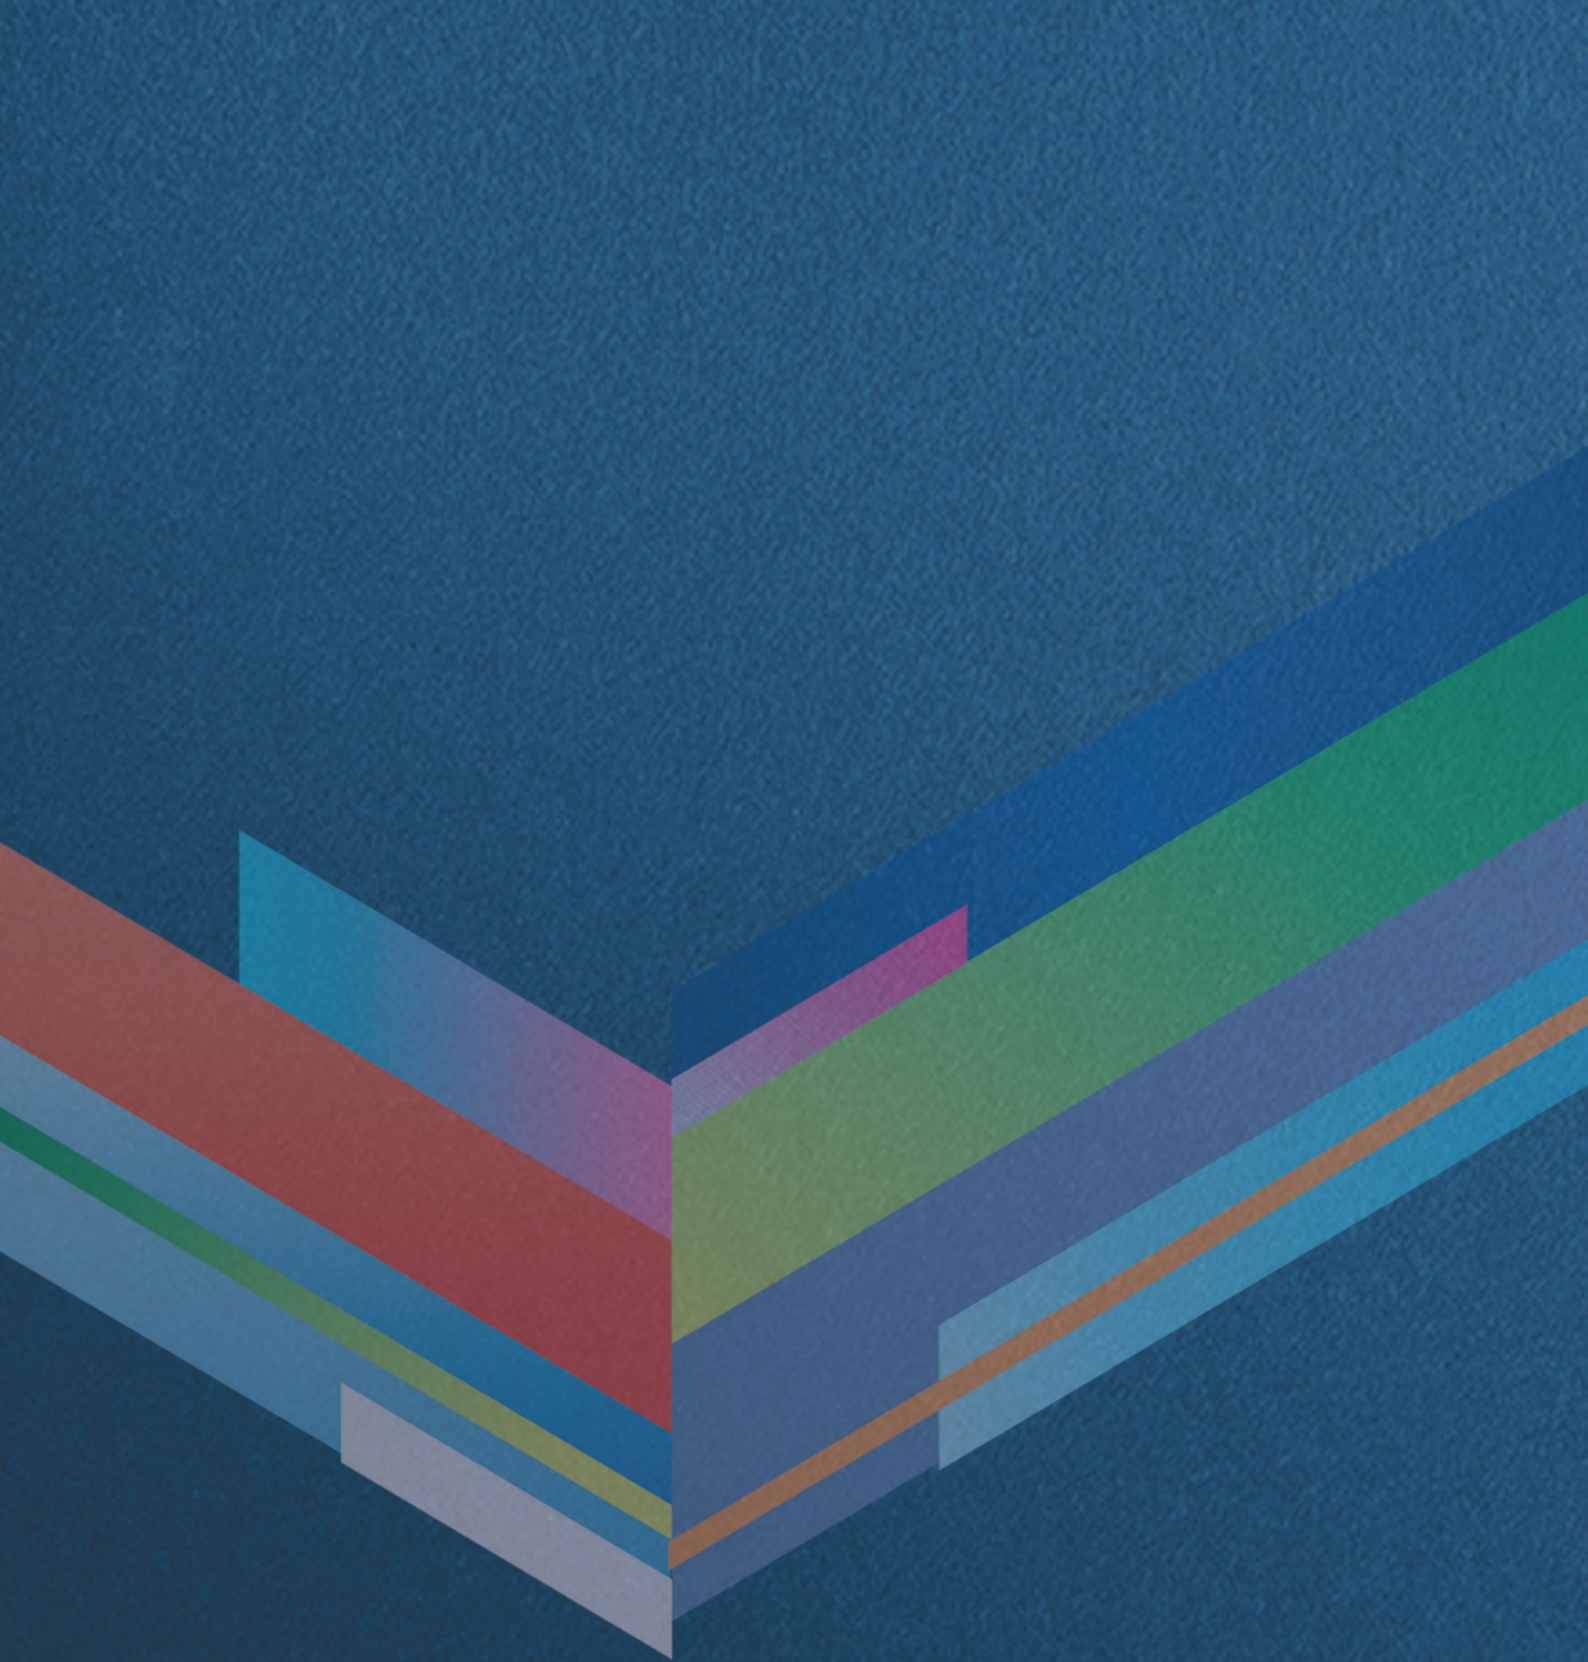

Convocation 2016

stars of Balochistan ultimately contributing to the development of the country.

Basic Sciences Department

The department of Basic Science is devoted to foster the fundamental principles and understanding of science that are capable of enhancing the human experience. The faculty of the Department of Basic Sciences teaches approximately 30 percent of the curricula in each discipline of Engineering. The academic programs for the subjects of basic sciences are organized to meet the requirements of the fast growing technology. The Department has been there, right from the inception of the Institution, offering instruction in Mathematics, Physics, Chemistry, English, Engineering Economics, Engineering Geology, Islamic Studies and Pakistan Studies to students of the various core branches of Engineering.
